

FEED THROUGH CERAMIC CAPACITORS · ASSEMBLED PRODUCTS [PLE Series]

The feed through ceramic capacitor assembled products can install PLE series feed through ceramic capacitors in connectors or plates upon request.

■ Features

- Can achieve large insertion loss against high frequency noise.
- Has a variety of feed through ceramic capacitors and are ideal for downsizing of filter connectors.
- Can be installed on any number of pins.
- Can be installed with a ferrite plate if necessary to improve noise-cutting performance.

■ Applications

- Noise reduction for automotive electronics
 - Air bag systems
 - Engine controller
 - Traction controller
 - Suspension controller
 - Antilock braking system
- OA,FA equipment
 - Personal computer, Work station, Pos
 - Robot, Process controller, Test equipment
- AV equipment
 - Digital TV, High definition TV.
